

US A-4 Flight Suit

WPG - Supplier of WW1 and WW2 Original and Reproduction Militaria

In Stock

30-Jul-25

Code: 100240000

Name: **US A-4 Flight Suit**

Description An exact reproduction of the AAF flight suit that served through all of WWII. Though classified as a summer flight suit, the wool gabardine construction made it suitable from year-round wear in the ETO. WPG's reproduction faithfully copies the 100% wool exactly, as well as all the details of an unissued original. That means the pockets are open topped (pocket zippers were user modifications). Also copies the gap at the bottom of the zipper that originals had (guess what it's for).

Available in: Size 52, Size 50, Size 48, Size 46, Size 44, Size 42, Size 40, Size 38, Size 36

Title: A-4 Flight Suit

Comments: My wife got this for me for my birthday and you all were very helpful in getting a size that works. Receiving it, the length is too long as are the arms as its a larger size- but I will see if I can have a tailor do some work on it when I get a chance. I've been losing weight so consequently the size is a bit tight for now but I think things will get better. I just want to make sure this can be altered as it looks difficult to do so. As to quality- its fantastic! My only issue is once altered, what do I wear underneath? I've seen photos of pilots wearing their officers shirts and tie, but do they wear the slacks as well? Do they wear something else? If anyone could let me know- that'd be great as I would like to be accurate. Thanks again for your great customer service and selling a quality product!

Title: Very good reproduction

Product Reviews

Comments: The quality and fit of this flight suit is very good. As I do not have an original example to compare against I had to base my judgment on historic photo-material and books. From what I can tell this is a most authentic reproduction I can imagine. Even the type label seems to be stemming from the original production line. Only minor deviation is that the size label patch does not match with the authentic type label (white loop instead of a black fix attached one). Would be an easy peak performance adjustment to WPG to finalize it as perfect product. Delivery was unbelievably fast and the service provided by WPG is the best I have ever experienced. Nothing can top it for sure.

Title: Superfast shipping but QA was lacking for this order

Comments: QA issues with zipper as 3" section entirely missed. Rma requested. Good reproduction but the collar is not cut like my original, but that may be a pattern difference between mfg. Overall, nice reproduction.

Title: Excellent Reproduction

Comments: I have an original A4 flight suit that I used to wear with a B17 Navigator impression. This item is essentially identical minus 2 zippers added to the original (on chest & leg pocket). Add 60+ years of age and it would be hard to distinguish from the original. Unbelievably quick shipping and customer service.

Title: Good.
Comments: I have a size 50 original and really don't want to wear it for obvious reasons. I chose a size bigger and apart from the arms being slightly too long to me they are a perfect copy apart from a few differences totalling about 5% of the originals. I would recommend and even go out of my way to get people to buy one of these suits. Mike.

Title: A4 Flight Suit

Comments: I was a little worried in that I'd usually take a size 42, but that size was currently out of stock. I mean, it IS a flight suit, so would I need to go bigger, or would the 42 be larger anyway to account for the fact it would go over other clothing, and STILL have some slack? I ordered the 44, and I'm glad I did. A 42 may still have fitted, but the 44 has that "comfort look" about it, as well as hiding the paunch! At 5ft 9 I'd assumed that I'd need to get the legs turned up, meaning the pocket would be precariously close to the floor! That was not the case. The legs are "slightly" long, but the press stud buttons at the bottom keep them snug around my boots without the "trailing" issues I've had with "pinks" [for example]. The colour was actually "nicer" than the illustration shows. The material is "confidence inspiring", and slightly heavier than I'd imagined which is no bad thing [especially here in England]. I've compared the product carefully against the illustrations in "Gear-Up" and photos taken in the field, and the only issue I have with mine is that it looks [and smells] too new! Other than that easily rectified problem I am REALLY pleased with it. It looks fantastic with an A2 jacket worn over the top and it will be ideal for wearing around the old airfields of the mighty 8th on open days! This is the second WPG item I have now purchased, and the respect this company has amongst the reenacting fraternity is well deserved.

Title: A-4 Flight Suit

Comments: The color, weight and pattern on this suit is indistinguishable from my (very small) original. The only thing not like my original, is the zipper pull. This flight suit is designed to fit over your uniform, like originals. I decided to go down a size for a trimmer fit.
