Product Reviews

Comments: I am very happy with my WPG Mountain trousers. I am a 36 waist and 6ft tall 200lbs and ordered a size 38. Fit is perfect, close around the waist, but sufficient room in the seat, thighs and legs for excellent mobility. Based on photos I have seen, 1 size up achieves the correct fitment. Thanks WPG!

Title: US Army Mountain Trousers

Comments: This reproduction pair of US Army Mountain Trousers is very well made. WPT does not stint on the fabric, zippers, buttons and such. Hint: You can go ahead and order your true size, and do not need to order anything larger. WPG's sizes are true. Also, WPG has mastered the tailoring necessary for "modern sized" people, while maintaining vintage and military type cuts.

Title: Mountain trousers

Comments: These pants are OUTSTANDING. The only problem (easily fixable, though) it's with the placing of the back waist inside buttons for the suspenders: with an original pair of mountain trousers suspenders they are placed too much apart, and so I had to replace them (Probably WPG has placed them basing on the regular trousers suspenders?. But the fabric, the sewings and the overall quality it's outstanding.

Comments: I had to order a 42 (I'm a 35 waist) thinking I could just cinch them in with a belt- I was pleasantly surprised when they arrived to find that I could take in the waist on these and ended up with a pair that fitted! OUTSTANDING repro, the material is spot on and all details are present. I can't recommend these highly enough. Maybe a second pair might be an idea! Simply awesome!

Title: Excellent Repro -Not so Excellent Exchange Policy

Product Reviews

Comments: Ordered a second pair for trekking & working outdoors. I could swear about comfort & durability. Didn't need to try out, even out of curiosity, other famed vendors' specimens: these are, in any case, the state-of-art in reproduction. Decisively Convenient Quality vs. Price. One word about Exchange Policy: I've got a wrong pair, so sent it back; despite the mistake not being mine, I had to pay for the return; I think this is not fair. Maybe I've done wrong something, I couldn't know it 'cause nobody replied to my e-mail. I offered to cut down the expenses including the right one in a further order, no answer as well. In fact I paid it more without a reason.

Title: US Army Mountain Trousers

Comments: Great trousers! I was really impressed with the quality. The fit was a little snug in the waist though. I wear a 36 jean and bought a 38 but should have gotten a 40. They should stretch out a bit though.

Date & Place: 17-March-2011  US

Title: Trousers

Comments: Ordered bigger than I needed due to experience with WWII Impressions Mountain Trousers. Had to return for smaller size, but very pleased with quality and color. The WWII Imp trousers are a greenish sateen, while these match the originals much better. I still recommend going one size higher than you normally wear because they will shrink a bit when washed. Line dry if you don't want major shrinkage. Great product Jerry!

Title: Spot-On

Comments: I have an authentic Mountain Uniform in my collection, and these pants are as close to the original as you can get. Even the color is spot-on to my original.
