Title: Mostly pleased

Product Reviews

Comments: I'm a 32, ordered 34. One of the few items I could have ordered my actual size. 34's just a little big even after wash and dry but I can live with a slightly cinched up belt. One thing that made these a 4 Star rating is that the left leg has the lacing on the side of the leg but the right leg lacing is more to the front, definitely not on the side like the left leg! Wearing putties it won't be so noticeable but with any boots that don't come up high enough it may look a bit odd. BTW my pair have two back pockets. I was getting all kinds of answers on Facebook regarding this. Two, one and none were responses but mine (thankfully) have the two rear pockets.

Title: Quick delivery.

Comments: As I have found with these reproduction breeches, it is best to order them one size larger. With one wash they shrink enough to fit comfortably. I like the fly arrangement on this pattern over the metal buttons of the 1908.

Title: excellent fit in the knee; a bit snug in the waist

Comments: The waist is a size 34" but turns out to closer to a 32" waist after minor shrinkage. Even before washing, the waist proved really snug. I might try a 36" waist but worry that the knee might not work as well. Nonetheless, to make the waist work, I'll lose weight! The knee is most important and the knee fits well.

Title: Authenticity of Breeches abounds!
Comments: It's not that I was surprised by the authentic look and texture of the khaki breeches, I didn't realize how very well they would look on me; given the said authenticity. Shipping was also speedy as well as customer service' were cordial. I'd give a 10 rating if allowed. Thank you for having these pants as no other store has perfected them as "What Price Glory" has. I'll be back! ☐

Title: Just what I needed
Comments: These breeches are well made, more than fairly priced, and fit me, which isn't easy. (I have a 36" waist, and 36" inseam). They go perfectly with the associated top. As always, kudos to Jerry and the rest at WPG. I will be shopping here again!

Title: Fast Delivery

Comments: When I was fox hunting and playing polo in the 1960's these breeches were the style. I have lamented their passing for years until I found your outlet for them. I had ordered what I thought were a regular size and received a medium which are a bit long for me. I have a friend of like mind and taller stature that my pair will go to. I am in the process of reordering.

Title: great pants, fast delivery!

Comments: The breeches are well made, good cotton, good quality. Sturdy and with a long life ahead. The bottom of the pants is bigger than I'd like, and the top 'flare' of the breeches not as flared as I'd like, but I'm thin, and a female, and so didn't expect them to fit like the old ones one finds. They are quite long, longer than original military models, but this will work fine for me. Super fast delivery, I look forward to ordering more from this company.

Title: Nice duds

Comments: These breeches are the yellowish khaki of all the KD British Military. I measure 38" around my waist at the belly button and these breeches fit well. Belt loops, no braces buttons from what I could see. Button fly. I have size 16" calves and these breeches around the calves swim, but nothing too drastic. 1930s style cut so a little baggy for Boer War 1900 look, but passable for WWI. Material sturdy and perfect for summer wear. Have not ridden in yet, but I am sure they'll do the job well.

Title: Khaki mounted breeches

Comments: Thanks for making these available. I use them for everyday riding and they not only look great but fit well too. And, living in hot and humid South Carolina, they are more comfortable than the skin tight ones sold now. This is my second pair, the first ones are still good, but need a new pair for show days.

Title: US Breeches Khaki Cotton

Comments: Excellent bit if kit that otherwise is not available. Used these to replace my 1930s British Indian Army breeches that have finally worn out. Went for 36" when I'm more a 34" waist to give enough material to work with, actually a 34" would have had plenty of room. Have tailored them in to a trad British fit, best way of doing this is on the inseam, have also replaced the cotton strapping with full leather off my old ones. Would it be possible to produce these breeches without the knee strapping attached but (provided)to make final tailoring easier? With this style of traditonal breechs there is no way that one set of sizings can fit all. ALso giving the sizings including calf size and inside leg to the rear knee seam might help those used to this type of breeches pick the nearest fit from which to have tailored. You might well be able to market these and a wool version to the UK and US Foxhunting Market, there is a demand for them but no one makes them off the peg.Different market for you I know but I think there would be buyers if marketed properly.

Title: Khaki Breeches

Comments: I wear these breeches for everyday riding in the hot and humid mid Atlantic. They are much better than the tight stretchy riding breeches available today. They are quite breathable. I had been looking for these old ones for years. Thank you WPG for making them.
