

US Helmet Nets

WPG - Supplier of WW1 and WW2 Original and Reproduction Militaria

In Stock

30-Jul-25

Code: 100290000

Name: **US Helmet Nets**

Description After exhausting all supplies of helmet nets of unknown origin available from Europe, I have finally begun making reproductions of the British made nets that were commonly issued to US troops.
Original nets were made simultaneously in 3 colors: Olive Drab, Khaki and Brown. I have reproduced the Khaki and OD colors. These are made tight like originals and may require 4 hands to get onto a helmet. HINT: If you wet this net and pull on it for a while, it stretches quite a bit. Also, only pull the drawstring at the knot, knots do not slide through the net. Specify color choice (Khaki or OD).

Available in: Olive Drab, Khaki

Title: OD-7 Helmet Net

Comments: I ordered this for late war impressions. At first it appeared to be an impossible fit. I soaked it in water, then tried again. It just kept stretching as I kept tugging. Just like a new pair of blue jeans it fits nice and tight. I have the OD-3 khaki one also. Over time the khaki one is now 4" bigger on both sides. Pure cotton is an amazing fabric. It is tough yet elastic. This is a good one.

Title: Helmet Net.

Comments: Great quality reproduction. Nice color and great fit on an M1 helmet. The size is correct: Stretch side to side, put the bales through a hole on each side and work your way around the shell cinching. An extra pair of hands helps.

Title: reenactor

Comments: the net seems a bit bigger than the first one I bought many years ago. That makes fitting it far easier. The netting is bigger than my two originals, and the first net, more like 1/2 (approx.) than the about 1/4 of originals that I own. However, it is a strong net and should serve well

Title: helmet net

Comments: bought mine over a year ago. it was too small for the helmet. i followed the advice of soaking it but it was still too small. it barely stretched. i had to use some wires to set it in place before putting in the liner. i removed the net for another impression and am now too lazy to put it back. I sure hope they are making it bigger these days.

Title: Net

Comments: When I got it out of the bag it came in, it was a small bundle of mesh. I thought "what the heck is this?" but if you have 2 people, soak it in water for an hour then each person grab 2 corners and pull, not too hard to rip it but just to stretch it. It looks really nice though.

Title: Helmet Nets

Comments: Nice Repo!! Hint to installing..Soak it in cold water for about 15 minutes..It will super stretch! Next if your working it alone..I found a pack of small spring loaded plastic clamps with a flat wide mouth at the dollar store..I clamped the net over the front lip with three clamps..stretched it over the back and clamped that.. then clamped one side and stretched it to the other clamping that as well. I coninuted to stretch the net to the desired shape by unclamping a few at a time and pulling at that point and reclamping working my way all around the helmets..This worked Great and Fast!

Product Reviews

Comments: Like others have said it is somewhat hard to install, you just have to keep stretching and it will eventually fit. It also helps if you use the Bales as hooks, just put one of the squares over the bale and that will keep it from moving.
