Title: Web belt

Comments: Had to adjust the belt. Color is great looks like some originals . But when you connected the metal parts together the paint falls off. Hopefully they need to fix the paint job on this. But great belt . Paint needs work.

Title: US M1936 Pistol Belt

Comments: Fantastic look and it fits! fast shipping and high quality service as usual! The belt keepers seem to be wider, which makes them easier to slide. I agree that the buckle needs some attention as it loses paint immediately that it is used.

Title: Great belt

Comments: I have heard a lot of people say that field gear from WPG should be avoided. This might have been true in the past, but the M36 belt I received was great. All of the eyelets were strong. The fabric is the right shade of OD#3. It feels like a sturdy belt. I would buy another one.

Title: M1936 Pistol Belt

Comments: This is a very nice product in two sizes, one especially for those of us that like food. They look correct, impliments hang correctly from the belt and attach with ease. The buckle needs some attention to be 100% accurate to the original. But that would be easy to do if another run of the M1936 takes place.

Title: Pistol Belt, M1936

Comments: This has got to be one of if not the best repro belts I have found. Not to mention the fact that it fits really well. The only complaint I could think of is that there were some sharp edges I had to sand down but that should not discourage anyone from buying one of these excellent belts!

Title: Good Belt

Comments: Good belt, good price. But the first time I put it on some of the black paint shipped off of the buckle exposing silver metal. Overall good belt though.

Title: US M1936 Pistol Belt

Comments: Belt looks good. Buckle metal is too thick, which made fastening quite difficult. Paint stripped off the buckle the first time it was fastened. A little metal will have to be shaved off the buckle for it to open and close smoothly and easily. It then will need to be repainted. It's obvious that nobody checks this at the time of production or this would have been sorted out by now. A disappointing flaw in an otherwise good product.

Title: Almost perfect, but still looks the part!

Product Reviews

Comments: Only thing I am disappointed in is the thick black paint on the buckle, it chipped off the first time I put it on. The sizing is off too, if you have a 40+ waist or plan on wearing it over a jacket go with the XL. I've taken all the slack out of mine and it's still tight around my 40" waist.

Title: Very nice pistol belt reproduction

Comments: I ordered one of these and I am very happy I did. Nice belt and looks as close to original as I have seen in a reproduction. WPG is a very good place to order from. Fast shipping and if there is any problems with your order they will work it out with you in a fast and friendly manner. I highly recommend this web belt and WPG.
