Title: Love it!

Comments: Just received this and love it! Sizing: I normally wear a 42, wanted to be sure I had room to layer a heavy sweater so ordered a 44. I tried it on and the sleeves were perfect with the sweater, a thermal top and WPG US 1916 pullover shirt. Also fits well with tee shirt and a HBT top although roomy in the chest a bit. Highly recommend this jacket!

Title: Amazing product but runs a bit small

Comments: Excellent reproduction of the M41 field jacket, I am very pleased with the quality of the materials and the overall thickness of the jacket. My only complaint is that it runs a bit small, especially if you have wide shoulders. I ordered true to size though and it is definitely roomy enough to layer at least the M37 shirt and a t-shirt. Overall an excellent product, but if you want to use it for your winter impressions, order one size up!

Title: M41 Jacket in 44L

Comments: Received the jacket super fast, like always, and ordered a 44L since they did t have a 42L. Jacket was very nice, but I didn't care for the fit, mostly because the body was so long. The arms were perfect for me, but the body was more like an Arctic M41. I returned for refund, unfortunately, although they were super easy on the return and refund. Excellent customer service as always.

## Product Reviews

Comments: This jacket is very accurate except for the tag in the neck. No big deal when you're wearing it but reenactors and historians like for our clothing to be accurate in every detail. Why so picky? We still have WWII vets alive today. Most of their minds are as sharp or sharper than ours today, and at a living history event where they can see the equipment and clothing, they'll notice this. Why the fuss, they bought our freedom! We're doing this in their memory and to say thank you for your service to your country. Like I said though, very accurate otherwise. Continue the mission WPG!!

Title: M 41 Jacket Long

Comments: I don't like the standard sizing which most producers of these jackets go by, which is why I turned to WPG. This is my second jacket from them. The shell is heavy, gives a nice and refined sateen look, and the lining is flannel, a softer alternative than wool which does suit me fine. Overall I love my jackets and highly recommend them.

Title: Good quality, inaccurate tags

## Product Reviews

### Comments:

My M41 just came in the mail a little bit ago. My first impressions are that it is definitely a good quality garment and feels durable. The color is accurate, and the materials feel accurate as well. My only complaints are one, the big ugly white WPG tag in the back of the jacket, it's a bit of an eye sore, inaccurate, and I'll probably end up ripping it out. Two, it lacks a manufacturers tag in the pocket like all original M41s have. WPG could've easily put the info that's on the big ugly tag in the back onto a more correct tag in the pocket. This tag issue is the only reason I took off a star. There are many reenactors, collectors, and historians that are much pickier than me and I will say, the tag issue will DEFINITELY chase people away from buying this jacket. WPGs M41 is a solid item, if they fixed the tag issue, it'll be an even hotter item than what it is now. Keep perfecting on this already great item! My only other issue was that it's a tad short on me. I'm a tall skinny guy with long arms. I contacted Wajed and he was more than happy to give me measurements so I could buy the right size. Going off of the measurements I was sent, I opted for the 38R, the smallest size (I have a 34 chest), when the 38L might've been more ideal, but I didn't want to buy too long. So I went for the 38R and the sleeve are a bit short. This one may be on me. But I'm sure there were plenty of guys back in WWII who were tall, skinny, and long armed like myself who had sleeves a bit short. I'd love to get a better size, but I guess the one I have will have to do.

Title: Polyester lining with a spaghetti body

Comments: The body on these are cut far too long than originals, as are many of WPGs jackets. The lining is claimed to be 100% wool but this is false, it is polyester, I had to shorten the spaghetti jacket and tested a liner swatch by burning it & it melted like cheese and smelled of burning plastic. Steer clear of this one until they do the original cut and live up to the wool claim.

Title: Very Impressed

Comments: Nice jacket. Well-made. Lighter than WPG's tanker jacket (which I also own). I'm 5'10", 170 lbs, with broad shoulders. I wear a size 42 jacket. Initially I took WPG's advice and sized down to a 40 regular. When the 40 arrived it fit fine, but it was a little tight with a couple layers underneath. I could have lived with it, but decided to exchange it for a size 42 regular. Zipper works well and is actually larger than the zipper on the tanker jacket. An interior chest pocket would have been a nice addition, but I suppose the original jackets didn't have those and it would have been historically inaccurate to add one.

## Product Reviews

Comments: This is my third M41 jacket, one from Kay canvas and one from Miltec and I was not satisfied with them so I went for a WPG and this by far the best. The material is very close to my original and is a very sturdy construction and feel like a genuine military garment, size wise I am a 38 chest, size is good BUT I did order a 38 regular and the one I received is very long ie 4 inches longer than my original war time size 38 (the WPG jacket do not appear to be marked with a size tag so I could not verify that a regular was sent and not a long one instead, I am 1.8metre height. The color is more mustard than photo appear on my computer, but the genuine ones do differ a lot in colour, so I am happy with the shade. So overall very please apart for the length which make the bottom of the jacket curl up by the zipper

Title: Thinner thread count (08-28-2021)

Comments: I purchased two of these jackets that both had the thicker higher thread count in the shell. The one I just received was the thinner lesser thread count and I was extremely disappointed. I worked in textiles for 30 years and I spotted it immediately you can feel it and see it if you look very closely. Now they are just like all the other jackets on the market with the thin shirting poplin. Why have they gone back to the thinner shell?

Title: Quality Product and Service!

Comments: For my first M41 jacket, I couldn't be happier. I ordered the same size I normally wear in suit jackets (44 long) and the jacket I received fits exactly how I had hoped it would. Comfortable, lightweight, and a bit warmer than I expected, this immediately became a go-to when I need a light jacket. WPG's service was excellent--the jacket shipped quickly and made it from the UAE to the southwestern corner of the U.S. in a surprisingly reasonable amount of time. This was my first purchase from WPG, but won't be the last. Thank you WPG!

Title: Terrifically satisfied with this M41

Comments: Construction and material that feels and looks authentic! Priced right, and shipped with characteristic speed. A serious, faithfully executed repro. If I could have one thing adjusted it would be longer epaulettes, but the size offered has historical evidence. I just like longer ones I've seen in some period photographs. Not a major issue at all. From the lining to the shell, this feels genuine.

Title: Overall good

Comments: Followed the advice on page and ordered a size down. The jacket fitted ok but when zipped was tight across the chest. Returned and got my usual size and its a much better fit. Sleeves are a good length but lining is bit baggy and bunches around the cuffs so I will probably get it shortened. Overall jacket is heavier and thicker than another brand I have and will take a bit more wearing in

Title: Great jacket but take care on sizing

Comments: This is a great jacket, heavier than the SOF/Kay Canvas which is good but much lighter. The WPG M41 is much heavier more sturdy stiffer cotton and the cut is better. Sadly I took the sizing advice and ordered a size smaller (40 as usually a 42) and although the shoulder and sleeves fitted, zipped up it pull across the chest so I ended up returning (plus postage) for a 42 which I hope will fit when it arrives.

Title: A Perfect M41 Field Jacket

Comments: This was my first order from WPG. I'm very satisfied with the product. I'm a size 48R, I went with a 50R, and I'm happy I did. After 2 handwashes, and dry cycles on low the end result is great! It's roomy, without looking too big. there's plenty of room fir a shirt and sweater under the jacket. I've had repros from other sellers, but there were always issues, with shoddy zippers and tiny epaulettes. I can confidently recommend this WPG version.

Title: Great light-to-medium weight jacket!

Comments: This isn't just a bit of "dress up kit"; this is a useful and practical jacket. It's sturdy, well assembled, fits well once washed and "broken in", and it's warmer and more windproof then it looks. If you're on the fence about this particular Parsons jacket, go ahead and buy it- it's good, solid, practical kit. Perfect for fall-late-fall-early-winter and with good layering you could wear it into winter.

## Product Reviews

Comments: First off, the shipping was super fast; kudos to WPG for that and for their system of keeping a customer informed of their order. The jacket itself is great: the exterior is thicker and more classic o.d. than other parsons jacket repros. the lining is very nice and very plush, and adds a good amount of warmth when combined with the exterior. Sizing: i ordered a 38 regular; i'm 5'9, 143lbs, 38" chest, 32" waist. Out of the box it was a bit big, and lacking any concrete care instructions i gambled and washed it in cold water and dried it on a gentle, low heat setting (and continue to do so). It fits great now; still has room for layers underneath, but not a baggy fit with just the jacket alone. The sleeves are now a hair too short; so maybe measure your arm length and factor in a bit of shrinking before ordering. definitely recommended; well worth the money

Comments: I really like this jacket and the feel of it is great, however....the shoulders are tight...to tight and not compensated for wearing a t shirt nevermind a reg shirt on top of that. Price is good but that shoulder thing is really nerve-racking . Maybe it's just the one I got in , I don't know . Order a size bigger, maybe that'll help....I can't because I ordered the biggest size available. Oh well , I'm keeping it regatdless.

Title: A very good M41

Comments: The WPG M41 I received is a solid repro, with color very similar to originals I have owned and good construction. Since I no longer do living history I don't care about the WPG maker's tag but that might annoy someone who does, though it could be easily replaced/removed. The originals I used to own typically had buttons of a more caramel color but these are ok. My only real complaint is the zipper is a bit cheesy and I had to wax it a little as it tended to catch. I bought this M41 to wear around and it will serve my purposes well, it seems well made and looks sharp. I would recommend it to others.

Comments: This the best reproduction of an M-41 Jacket ever, it surpasses any other reproduction I've gotten over the years also.. it isn't loosely stitched and the exterior/cotton-shell is definitely sturdier/tougher than any other reproduction. Comments: I like this jacket. I have a "summer weight" M41 but the price for this lined jacket and the offering in size long made this buy irresistible. Comments: High quality jacket with nice heavy cotton shell with good workmanship. Title: Excellent value Model 41 Jacket  
Comments: I recently received a WPG Model 41 Field Jacket, and I could not be more pleased with it. The quality is solid, all the details are spot on, from the thin wool liner to the pale green color (which I expect to fade to a more khaki color as it ages, like the originals). The sleeves were 1 1/2" too long, but a needle and thread fixed that in no time. I normally wear a 42R jacket, and this size 42 fits just the way I like it, plenty of room for a wool shirt and sweater. All in all, the best repro M41 Jacket I've seen, and a great value for the price. I highly recommend this product for anyone in the market for a good M41 jacket.

## Product Reviews

Comments: Comparing to my 30 years ago memory of an original that I had in the '70s. It measures up in all areas. (my original then already had a broken zipper, by the way) Been a long time since I have seen a zipper marked "TALON." That used to be THE name in fasteners. Very pleased with the color and materials. 42R is modestly roomy for my 40R or so frame. Just right for "field insulation," an extra wool shirt or old issues of "Stars and Stripes" to stave off December 1944 cold. Yes, Sergeant Saunders and his squad would be very proud!

Comments: Firstly, these jackets are not sized like modern clothing. They are a true fit. I ordered a 38L. At 6'3" I only wish the sleeves had been a little longer. The body of the jacket hits me just below the hips, which seems a little long. I had a 38R original jacket when I was young, and it fit more like a windbreaker- of course the sleeves were way short. Just my build.... The colour is an O D #3, and the buttons are greener than the coffee ones I've seen. The construction is really excellent. I have received many compliments. I wear it all the time. Haven't had an m41 in twenty years. I love it....

Comments: Great jacket! Compares very well with all the other high end repros out there at the moment. Also more importantly, it compares very well to originals. The zipper is the only part I would change. Also the jacket is cut without the taper that originals have. Therefore these would fit a slightly larger guy better. As everyone else has stated, order up one size for a better fit.

Title: Awsome Jacket

Comments: This Jacket is amazing! It is well worth the very cheap discount price of 65 bucks. This has 100% Wool lining. This jacket is just as good as a 120 buck repro from at the front, but twice as cheap! This jacket is sized very small, so I reccomend getting a size or two up from what size you wear. I wear a 36 or 38, and I got a 42 and it fits like a 38. Zipper works great. This is the Best jacket I have ever bought. Thank you WPG for fine attention to detail and authenticity. GET IT!

Title: M-41 Jacket

Comments: A pretty nice reproduction of the originals. There are some minor nits that are not correct, but for the money I suppose a nice jacket. The sizes seem a bit small to me but probably more accurate to the originals. I usually wear a 44R sport coat/jacket and ordered a 48R. The jacket fit perfectly but am worried if there is any shrinkage or I decide to wear it with a wool shirt and HBT jacket, it may be tight. The quality is decent and probably a bit beter than the originals. The zipper is not the same type/maker as the original but I've seen worse on some repros. Not a big fan of the collar tag. Not realistic and no where near an original look. I suppose you can always remove it . Might have been nice to locate the WPG tag somewhere else not so noticeable. Overall probably one of the better m-41 jackets out there. I was impressed with the prompt shipping.

Title: A best friend  
Comments: I still cannot say nothing about the quality of reproduction, 'cause I never saw an original & I can't compare the fabric. All I can say is that, despite some initial doubts, I came to appreciate the quality of the garment in itself to the best degree. The comfort, the quality of lining, the fitting & tailoring is simply excellent. since the very first time I put it on, it became my favorite jacket for any occasion. Even might it came out that it is not the closest repro of an M41, it would ever remain a very special one. The zipper may not look like a period one, but it's durable, I can guarantee.

Comments: One step behind Perfection. I always desired an M41 repro jacket for daily use: this one fits perfectly, will last & endure, it's Very close to the original in every detail. Buttons are perfect, they're not the "chocolate" type but the "caramel" one, which is as well perfectly correct. I'm not convinced about the zipper, I would have preferred a Talon/Conmar brass GI type, the type used seems to me a bit poor. Quality/Price balance is frankly remarkable & unmatched

Title: Nearly Top Notch - Good Price  
Comments: The Quality of Material is out of question, though I frankly don't think this is the Top Repro. Excellence is just a step further on.

Comments: I bought two of them. The quality of the jacket is good and it really looks like the original. Unfortunately both jacket have problems with the zippers which are poor quality.

Title: M41

Comments: I ordered a size 50 M 41 jacket and was impressed with the speedy delivery; upon arrival I detemined that it was a wee bit snug and possibly short in the body. No worries. The return procedure was simple, efficient, and fast. I even called Jerry to ask some sizing advice and he was well aware of my return. Product is excellent. I usually stick to Canadian and British items but the M 41 is a classic and WPG does it so well. John Goheen Battlefield Tour Guide

Title: M41 Field Jacket

Comments: Really nice reproduction-best I've owned. The shell's color is good and the lining is first-rate! Buttons could be darker brown like my original, but it's a small mox-nix detail. All stitching and other details on this jacket are pretty fine. I'll have to order another one of these!

Title: M-41

Comments: This is a great reproduction, but seems to have an unusually long torso. As a result it fits very strangely.

Title: JACKET, FIELD, POPLIN OLIVE DRAB SHADE 9 M-1941

Comments: Best version of this particular jacket that I have seen after having bought three from three different manufacturers. This one has the epaulets that go all the way up to the neck and lapel; the poplin outer shell is heavier and will wear longer. Ordering some more. Well done WPG. S/F, R. S. Comments: Bought one of these jackets from you several years ago. Was extremely pleased with it. I have several original M1941 jackets in my collection, and yours are by far the best copies made.

Title: Good for everyday wear, too  
Comments: The jackets are cut to military spec - so narrow at the waist and shoulder. If you have a deep chest, go up a size. Interior is thin wool, exterior is cotton. Fit is perfect and fastens with both zipper and/or buttons. Pockets are deep so stuff won't fall out. The styling is suitable for wearing to the office, to the store, or to military events. Bi-swing back with belted waist in back, just like originals. Good mid-weight jacket.
